## Report on National Science Day

National Science Day is celebrated annually on February 28th in India to commemorate the discovery of the Raman Effect by Sir C. V. Raman in 1928. This scientific discovery earned him the Nobel Prize in Physics in 1930.

**National Science Day Theme 2024 :** The theme for National Science Day 2024 is “**Indigenous Technologies for Viksit Bharat**”. This theme underscores the critical role science and technology play in tackling global challenges and creating a more sustainable future for all.

## **1987: The First National Science Day:**

Following the government's approval, February 28th was formally declared National Science Day in 1986, marking the first official celebration in 1987.

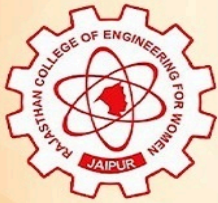

National Science Day continues to be a significant event in India's scientific calendar. By remembering the past, celebrating the present, and looking toward the future, National Science Day plays a crucial role in shaping India's scientific landscape and inspiring generations to come.

**RCEW Students of I<sup>st</sup> Year, Applied Sciences Department, conducted an inter college Poster Making Competition on the occasion of National Science Day on 28<sup>th</sup> February 2023, Wednesday**

Students of different branches took part in it. Several posters were made by the students to acknowledge this Day also speech on life of CV Raman and his contribution in science. Winner were also awarded by the Dean Academics of RCEW.

**The students as well as the faculty members had a great time.**
